Can I incur overage charges if I use more than the allotted time?

Global Calling · https://mediacomsupport.reachmobile.com/doc/can-i-incur-overage-charges-if-i-use-more-than-the-allotted-time/

No, this feature includes unlimited calling to some destinations as well as capped minutes to other destinations which are limited to those minutes of calling per month. Except for unlimited destinations, once you have used the allotted minutes for capped destinations, you will not be able to place any additional calls to those destinations. You can still call unlimited destinations. The capped destinations will reset on your next billing cycle.
